turn the cross to shaft in the ordinary way. I will be an authority on ancient tools when I get through here. March and nearly time to go home. Uncle Andrew will probably have to miss Mother's visit. She wants to go home when I do. If you will send us money when you get this it will about make thing the time right. Winter will be well over by the time we could get started. Send us enough for a first class trip and some to spare and when I get home I will have the balance in my pocket. If we come second class. Mother is all right now but I wish she hadn't come to San Francisco. I must

close up now for its late and I must get up early see. Will write again tomorrow. I am surprised that Rix + Birrell ask for a consignment they did not speak to me of it. It would be perfectly safe to make one to them. The I saw a letter in their office where the Straight Line Eng. Co. offered to send a second engine here as this firm had sold the first one sent on consignment. Birrell told me that they would not expect to carry any stock of ours here. It would certainly help them introduce us here if they had a machine.

Yours

Jim.

P. S. Will you please look up the price of first class passage. Second class was \$108 for two,
