Oct 28 1898

My Dear Daughters & Sons
I shook the dust off Ireland
off my feet in all probability
for the last time. I found Mrs
Deary very much more
as compared with my last visit
but still strong for a woman
of about 82 years I spent
two days in London and
received your letter of the 14th
I have just returned from

Huddersfield and Brown & Sons
had Mastered most of the
Points on the Planers the
Others I set Right in a few
Minutes. they are very well
Satisfied. I called on Houtchins
& Hollingsworth. Mr Hollingsworth
is not home at present, but his
Supt told me that he was
anxious to see me, and I
have an appointment to
meet him Next Tuesday morning
they have only just Mastered
the 24" and the 36" is but
just received Brown & Sons
will want a 44" in the near
future they did not say anything
as to whether they had paid for

the 48 Or Not but I took it
for granted they had as there
was not any question as to
its being all right. I will visit
the other places for Marrom
and Monday. and about
Wednesday next will be in
Glasgow. When I will commence
by Home and Journey by way
of Berlin and Paris. it is very
lonesome ones here so far from
home but last night I met with
a very agreeable surprise for
Bullard is stopping at the
same Hotel. and we spent
a very agreeable evening
together he is conversing the
tomus in this vicinity making

Manchester his Head quarters
I dont expect any more letters
untill Errect Gascom. I did
nt receive any photos off the
files. Gas and have taken it
for granted it was a failure
but the Blue Print answers
all Purposes. I did nt see
the London Engineering Man
he not being at home.

My Expectations are to
finish this Country next
week and 8 or ten days for
Germany and France and
sail for Home about the
18th good bye

William Gleason
