Dear Anna

I have hunted through all the recipe books for the one for "Higdom", from Mrs Harper's sister - but find only the Mrs Hymer's, ~~enclosed~~, which I think you did not use - Do you know where it is? Margaret & I put up 17 qt. cans of tomatoes last week, and when the things for the Higdom are ready we will have to tackle it -

So if you have the recipe in your belongings, please send on, with any alterations you may think best as to amount of spices, peppers &c. We had six extras
